International Master (1971); Grandmaster (1973); Yugoslav Champion (1970, 1975 and 1997).

Nicknamed “The Boss”, (1), and sometimes called the “Yugoslav Tal”, Dragoljub Velimirović (Serbian Cyrillic: Драгољуб Велимировић) was a well-liked, innovative and feared attacking tactician. While never a serious threat for the world title, he nevertheless contested three Interzonals and was ranked within the top 100 of the world’s players for approximately 20 years from before 1969 through to 1989, when he was at his most active. (2)

General

He was born in Valjevo, in the part of the former Yugoslavia that is now Serbia. He moved to Belgrade in 1960 where he lived until his death. He learned chess when he was seven from his mother Jovanka Velimirović, who was Yugoslavia's first Women's Champion. (3)

Championships

<*Junior*> Junior Champion of Bosnia and Herzegovina in 1958, he was 3rd in the 1959 Yugoslav Youth Championship, half a point behind co-leaders [Bruno Parma](#) and [Ivan Nemet](#); and then followed up by winning the Yugoslav Youth Championship in 1960 or 1961. (4), (5)

<*National and Regional*> Velimirović first played in the Yugoslav Championship in 1962 at the age of 20 when he placed =3rd with 8.5/13, a point behind the (eventual) 12-time winner [Svetozar Gligoric](#), a half point behind the runner-up [Aleksandar Matanovic](#) and alongside [Mato Damjanovic](#). (6) His next attempt was in the 21-round round-robin event held in Zenica in 1963, where he placed 12th with 10/21. (6) In 1965, he was =4th with 10.5/19 behind the winner Gligoric and the joint runners-up [Borislav Ivkov](#) and [Bruno Parma](#). (7) He played in over 20 subsequent Yugoslav championships, the last one being 2003, with his best results being wins in 1970 (jointly with [Milan Vukic](#)) and 1975, 2nd in 1981 behind [Bozidar Ivanovic](#), 2nd behind [Predrag Nikolic](#) in 1984 and =1st in 1997 when Yugoslavia had become a federal republic. (8) He was also the Balkans Champion in 1972. (9)

<*World*> Velimirović commenced his participation in the World Championship cycle when he entered (but failed to progress past) the Yugoslav national qualifier for the 1963 Zonals and ended in 1999 when he qualified via the Panormo Zonal in 1998 to play in [FIDE World Championship Knockout Tournament \(1999\)](#) in Las Vegas. (10) Unfortunately, he was not issued a visa by US authorities to allow him to compete in Las Vegas due to political tensions with Yugoslavia at that time. His best results within the World Championship cycles in which he participated were to qualify for and participate in the [Rio de Janeiro Interzonal \(1979\)](#), (11) the Moscow Interzonal in 1982 (12) and the Szirák Interzonal in 1987. (13)

Classical Tournament Record

<*1970s*> Velimirović scored 9.5/15 at Vinkovci 1970 placing 5th, a point behind the winner [Bent Larsen](#), and half point behind joint runners up Gligoric, [Vlastimil Hort](#) and [David Bronstein](#), but ahead of [Tigran Vartanovich Petrosian](#), [Mark Taimanov](#) and [Laszlo Szabo](#). (14) This result and others such as his 2nd placement at the category 9 Skopje tournament in 1971, behind [Lev Polugaevsky](#) and alongside [Albin Planinc](#) earned him his International Master title, (15) well after he was within the group that constituted the world's top 100 players. He earned his Grandmaster title when he won the Vrnjacka Spa event at Vrnjacka Banja in 1973, (16). In 1974: he was 3rd at Reykjavik (17). In 1976, he was =4th, a point behind co-leaders [Viktor Korchnoi](#) and [Anthony Miles](#) and half a point behind 3rd placed [Gyula Sax](#) at the category 11 IBM tournament in Amsterdam. (18) He also competed at Novi Sad in 1976 placing 2nd behind [Jan Smejkal](#) and ahead of Hort and Gligoric. (19) In 1978, he placed =3rd at Osijek behind Gligoric and [Andras Adorjan](#), (20) and 1st at Albufeira ahead of [Ljubomir Ljubojevic](#). (21) In 1979, he came in 2nd at Smederevska Palanka behind [Dusan Rajkovic](#). (22)

<*1980s onward*> This decade saw Velimirović continue his exploits and successes on the 64 squares. In 1980, he came 2nd at Borovo behind [Milan Matulovic](#); (23) =1st at Zemun alongside [Milan Vukic](#) (24); and =3rd at Maribor behind [Vladimir Kovacevic](#) and [Jonathan Speelman](#). he won the Savic Mauzer Memorial tournament in Bijeljina. (33)

<*Olympiads*> In 1964 he played board 4 for the Yugoslavian team at the Student Olympiad held in that year in Cracow in Poland, (35) and helped his team to win the qualifying stage (36) to enable it into the final where it placed 5th. (37) He also played top board for his country in that event in 1967. (38) He represented Yugoslavia at six Olympiads, namely 1974, 1978, 1982, 1986 (when he was also the coach (39)), 1988 and 1990; his tally of medals included a team silver and an individual silver, both of which were won at the 1974 Nice Olympiad. Драголюб Велимирович:

«Миша был большим озорником!»

Мария Фоминых беседует с ещё одним участником ностальгического матча СССР-Югославия, гроссмейстером Драголюбом Велимировичем.

Один из самых «перчёных» вариантов в теории дебютов носит имя югославского гроссмейстера Драголюба Велимировича. Любопытно, что эту грозную сицилианскую атаку он разрабатывал вместе с мамой, тоже шахматисткой. В общих чертах напомню суть варианта: белые выводят слонов на c4 и e3, уводят короля на ферзевый фланг, а королевские пешки маршируют в сторону неприятельского монарха. «Детище» как нельзя лучше отвечало стилю игры Драголюба: за веселую игру с обилием жертв и красивых атак Велимировича не раз сравнивали с самим Талем. Словом, были все основания предполагать, что и в партиях 22-го матча СССР - Югославия Драголюб покажет свою фирменную игру, а он возьми да обыграй Балашова самым холодным образом, на технике в глубоком эндшпиле. «Талевские шахматы» Велимирович не показал, зато с большой охотой поделился воспоминаниями о гении и просто друге Мише.

Рассказывать о Михаиле Тале я могу бесконечно, мы с ним очень дружили. Миша был уникальным человеком, не просто чемпионом мира и очень сильным шахматистом, но необыкновенно яркой личностью. Это был очень чистый человек, его совершенно не интересовали деньги, он был выше всего этого, даже к результатам своим он относился с какой-то удивительной легкостью. Сразу после партии он становился душой компании, не жалел времени для друзей. С Талем я сыграл много партий, несколько выиграл, но общий счет, конечно, не в мою пользу. Одна из наших встреч за доской запомнилась особенно. Мы играли на первой доске, это была

ответственная партия. В один момент я сделал свой ход и встал из-за стола. Смотрю, Таль склонился над доской и напряженно вглядывается в позицию. Я подумал: « Надо же, какой я сделал ход - удивил Талля!» С этой радостной мыслью я бродил по залу. А Таль тем временем, оставаясь в том же положении, продолжал неподвижно сверлить глазами доску! Прошло пять минут, десять, пятнадцать... наконец, я не выдержал, подошел к судье и сказал: «Возможно, с Талем что-то не в порядке!» Каково же было мое удивление, когда я подошел к нашей партии и увидел, что своим последним ходом переставил слона с d3 на g5! По-видимому, Михаил тоже не сразу понял, каким образом мой белопольный слон очутился на черном поле! Мне стало очень неудобно, я долго извинялся перед Мишой. А после партии он мне сказал: «Конечно, этот ход оказался для меня неожиданным, но все же это неправильно - так ставить фигуры!» А вот еще случай, уже за пределами игрового зала. На одном турнире в Москве Таль подошел ко мне после партии и спросил, какие у меня планы на вечер. Я сказал, что собираюсь вернуться с Ларсеном в гостиницу. Миша эта идея показалась скучной, он меня, конечно, отговорил, и вместо гостиницы мы отправились в кабак. Едим, пьем... А съедено было немало, мы провели там много часов. И вдруг я задумался: как же мы будем расплачиваться? - и полез в карманы. Миша это увидел и сказал: «Брось, в Москве платить не надо!» А я ему: «Как же нас выпустят, если мы не заплатим?» Но тут подошла официантка, стала нас обнимать, целовать, мне даже стало неловко! «Говорю же, в Москве не надо платить!» - с улыбкой повторил Таль... Однажды, тоже после таких вот посиделок, я понял, что выпито уже многовато, и сказал: «Миша, как же ты будешь играть завтра - дыхнешь на соперника, и ему станет дурно!» Миша пообещал, что таких проблем не будет, и гулянье продолжилось. А на следующий день перед партией он заказал чай с липой и попросил положить липы как можно больше. Когда ему принесли этот чай, он стал доставать липу и жевать ее! Я смотрел на него с большим удивлением, однако средство оказалось действенным.

Таль вообще был большим озорником. Все ему было ни почем! Шли мы с ним однажды в гости. На улице мороз жуткий, а мы одеты легко - идем, ежимся от холода. Я говорю: «Замерзнем ведь, надо пойти в гостиницу одеться». А он мне: «Вот когда вернемся в гостиницу, тогда и оденемся!»

Виртуоз атаки. Ушел из жизни Драголюб Велимирович

Пятница, 23.05.2014 21:13

Сегодня в Белграде в возрасте 72 лет после продолжительной болезни скончался известный югославский гроссмейстер Драголюб Велимирович.

Сайт Сербской шахматной федерации [приводит](#) некоторые факты биографии шахматиста.

Родился 12 мая 1942 года в городе Валево, но с раннего детства жил в Белграде. Первые шаги в шахматах сделал благодаря матери Йованке Велимирович, которая была первой чемпионкой Югославии среди женщин. После победы в Кубке Югославии в 1962-м стал национальным мастером, успех в Скопье-1971 принес Драголюбу звание международного мастера, а гроссмейстером он стал двумя годами позже.

Более двадцати раз участвовал в национальных чемпионатах, трижды выигрывал их. Побеждал на международных турнирах, в частности, в Будве-1981 (зональный), Титограде-1984, Вршаце-1987...

Стиль игры Велимировича требовал много энергии: он предпочитал сложные позиции. На пике карьеры считался виртуозом атаки. В

сицилианской защите есть и вариант, названный его именем: атака Велимировича.

Шесть раз представлял свою страну на Олимпиадах - с 1974 по 1990 годы. В частности, в Ницце-74 завоевал серебряную медаль с результатом 9 очков из 12.

Прощание с Велимировичем состоится в понедельник, 26 мая.

Драшко Велимирович

Один из самых интересных и, как мне представляется, глубоких шахматистов мира, его новинки в сицилианке и Бенони (где острейшая система названа его именем) и острейший атакующий стиль снискали ему широкую известность в шахматном мире. Кроме того, он интереснейший человек и собеседник, имеющий по каждому вопросу свое мнение и отстаивающий его в любых условиях. Играя белыми против сицилианки, он был, по-видимому, наиболее опасным в мире (в этом ряду еще Цешковский, Сакс, А.Соколов, Шорт), особенно не задумываясь, жертвовал фигуры на e6, d5 и b5. Из его побед в сицилианке можно сделать целый учебник ата-

ки. Достичь высших шахматных достижений ему помешали невероятное сербское упрямство, полная недооценка физической подготовки и психологическая неустойчивость. Однажды, расстроенный своей ошибкой, он просто выбросил своего короля через окно в озеро – в знак сдачи партии. Или другой случай – он играл против венгерского гроссмейстера Андраша Адорьяна, который при своем ходе снимал свое желтое пальто и вешал его на спинку стула, а при ходе Велимировича надевал его. Тому это стало страшно мешать, и он в один момент просто снял пальто Адорьяна со стула и выбросил в окно! Можете себе представить масштаб разгоревшейся скоры.

Вообще Драшко происходит из Сербской Боснии, и его дед – известный протоиерей Никола Велимирович. Драшко является лучшим тренером Югославии. Он тренировал Наташу Бойкович, Светозара Глигорича и даже Виктора Корчного. Однако международной карьеры не сделал из-за нежелания изучить хотя бы один язык. Так же, как и великий Тигран Петросян, имеет проблемы со слухом и носит специальный аппарат.

Имеет летний дом в Герцег Нови и обожает готовить для гостей рыбу на углях, всегда готов помочь шахматистам в нужде. Когда семья гроссмейстера Драшко вынуждена была бежать из Боснии, он предложил тому бесплатное проживание у себя в Герцег Нови. С ним всегда происходили занимательные происшествия. Однажды в одном селении Войводины гроссмейстеру после сеанса и обильного обеда предложили поохотиться на фазана. Выдали униформу, двустволку времен Тито и поставили на позицию. Вдруг через некоторое время Драшко (друзья его также называли

Газда) почувствовал, что сзади на него кто-то смотрит. Оглянувшись, он увидел огромного кабана, готовящегося его атаковать. Газда бросил пушку, прыгнул вверх из сапог и с диким криком бросился прочь. Услышав крик, все остальные охотники и собаки бросились спасать Газду, кабан увидел бегущую толпу во главе с собаками, передумал и бросился в другую сторону. Газда же не смог остановиться и с разбегу бросился в озеро. Пришлось долго отмыватьсь. Интересными были комментарии в прессе – гроссмейстер Яношевич написал, что, встретив кабана, гроссмейстер Велимирович сделал ничейное предложение, бросив пушку. Охотничий журнал в Загребе написал, что гроссмейстер со страху оседлал кабана и поехал на нем через кусты. Другие написали о мировом рекорде бега от кабана и высоте прыжка из сапог!

1.d4 $\mathbb{Q}f6$ 2.c4 g6 3. $\mathbb{Q}f3$ $\mathbb{Q}g7$
4.g3 0-0 5. $\mathbb{Q}g2$ d6 6. $\mathbb{Q}c3$ $\mathbb{Q}c6$
7.0-0 $\mathbb{Q}g4$ 8.h3.

В ответ на любимую систему Газды я реагирую не лучшим образом.

В дальнейшем я установил, что 8... $\mathbb{Q}e3$ более сильное продолжение.

8... $\mathbb{Q}xg3$ 9. $\mathbb{Q}xg3$ $\mathbb{Q}d7$ 10. $\mathbb{Q}e3$.

Другое продолжение 10.e3 e5 11.d5 $\mathbb{Q}e7$ 12. $\mathbb{Q}e2$ f5 13.f4 $\mathbb{Q}c5$ со сложной игрой.

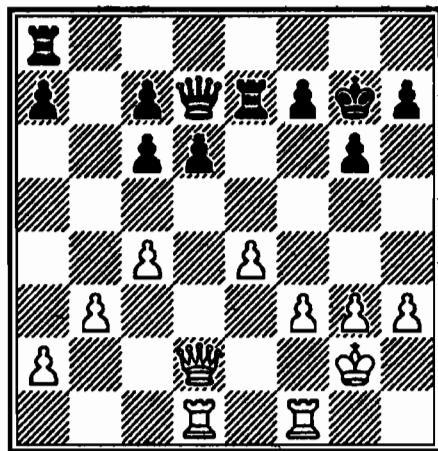

10...e5 11. $\mathbb{Q}xc6$ bxc6
12. $\mathbb{W}d2$ $\mathbb{Q}e8??!$

Мне показалось естественнее 12...f5 или 12... $\mathbb{W}e7$.

13.b3 $\mathbb{Q}f6?$

Не совсем правильное понимание позиции — точнее 13...exd4 14. $\mathbb{Q}xd4$ $\mathbb{Q}xd4$ 15. $\mathbb{W}xd4$ c5 и затем f5 и $\mathbb{Q}f6$, и я не вижу у черных трудностей.

14. $\mathbb{Q}ad1$ $\mathbb{W}d7$ 15. $\mathbb{Q}g2$ exd4
16. $\mathbb{Q}xd4$ $\mathbb{Q}e4$ 17. $\mathbb{Q}xe4$ $\mathbb{Q}xe4$
18. $\mathbb{Q}xg7$ $\mathbb{Q}xg7$ 19.f3 $\mathbb{Q}e7$ 20.e4.

У белых лучшая структура, и я ожидал следующего развития событий — черные играют c5 и a7-a5-a4, создавая слабость на b3, а белые играют g4 и h3-h4-h5, атакуя с другой стороны.

20... $\mathbb{W}e6?$ 21.c5!

Теперь у черных возникает куча слабостей.

21...dxc5 22. $\mathbb{W}c3$ $\mathbb{W}e5$
23. $\mathbb{Q}c1$ f5.

За ничью следовало бороться, скидывая пешку 23...a5! 24. $\mathbb{W}xc5$ - $\mathbb{W}xc5$ 25. $\mathbb{Q}xc5$ a4 26. $\mathbb{Q}xc6$ axb3 27.axb3 $\mathbb{R}b8$ 28. $\mathbb{R}b1$ $\mathbb{R}b7$, и затем активизируя ладью e7, с идеей перейти в ладейный эндшпиль с тремя пешками против четырех на одном фланге.

24.exf5 gxf5 25. $\mathbb{W}xc5$ $\mathbb{R}d8$
26. $\mathbb{R}f2!$ $\mathbb{R}d6$ 27. $\mathbb{R}c4!$ $\mathbb{W}xc5$
28. $\mathbb{R}xc5$ $\mathbb{Q}f6$ 29. $\mathbb{R}fc2$ $\mathbb{R}ee6$
30.h4!

А теперь черные связаны, и можно спокойно улучшать позицию фигур и пешек.

30...h6 31. $\mathbb{R}a5$ $\mathbb{R}d8$ 32. $\mathbb{R}xa7$ $\mathbb{R}ed6$ 33. $\mathbb{R}xc7$ $\mathbb{R}d2$
34. $\mathbb{R}xd2$ $\mathbb{R}xd2$ 35. $\mathbb{Q}h3$ $\mathbb{R}c2$
36.b4 $\mathbb{R}c4$ 37.a4 f4 38.a5 fxg3
39.a6 $\mathbb{R}xb4$ 40. $\mathbb{R}xc6$, черные сдались.
